

FELSS

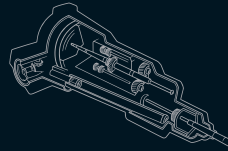

The smarter way of forming.

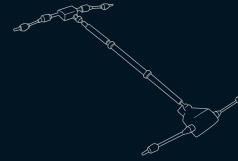

E-Mobility

Steering

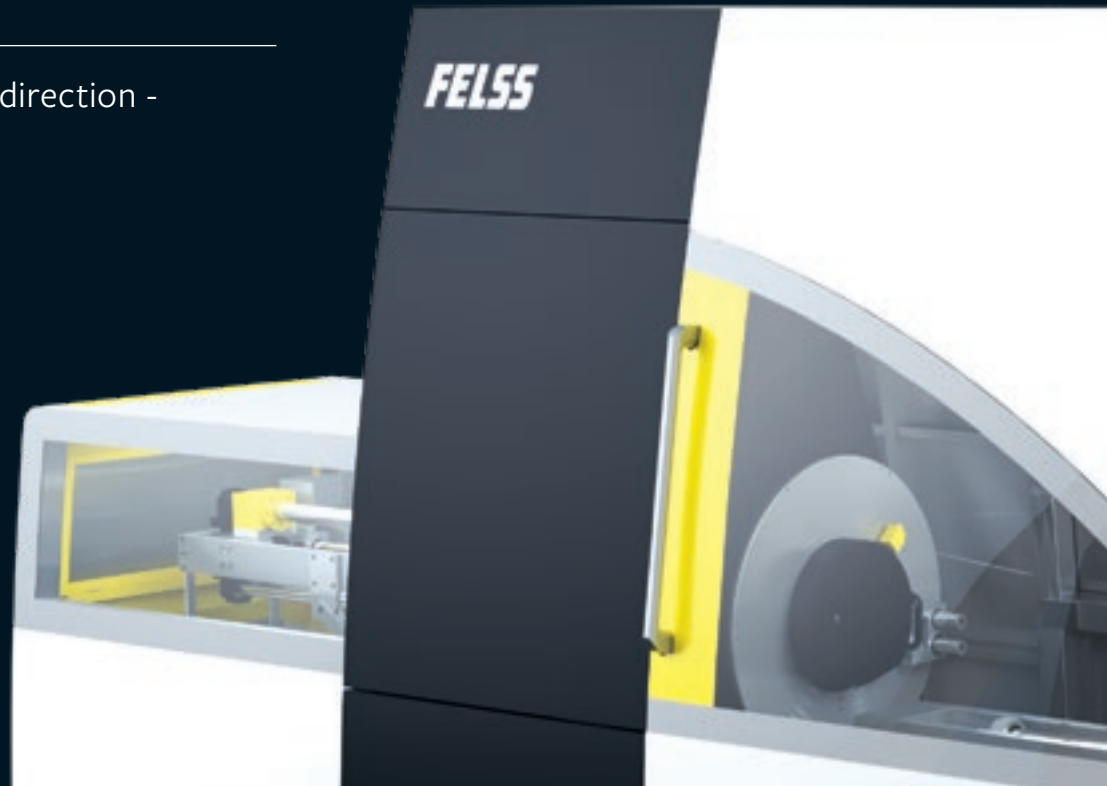

Transmission

Drive Train

STEERING

Steer with us in the right direction -
Light, precise and strong!

Our benchmarks for your
“Added Values“:

LIGHTER

Weight optimization through intelligent material distribution inside the part.

STRONGER

Improved part properties by defined control of the material thickness.

RESOURCE EFFICIENT

Cold forming works without loss of material, without chips and avoids waste.

FASTER

Innovative technologies reduce time spent and optimize processes.

MORE PRECISE

Production of complex geometries with highest precision.

THE FELSS GROUP

The Felss Group is your solution provider in the field of cold forming.

As a lightweight construction expert, we develop optimal solutions and processes for our customers - from development to the machine or even to the finished product in component manufacturing.

Worldwide at our locations in Germany, Switzerland, Slovakia, the USA and China, around 800 employees work together with our customers today to meet the challenges of tomorrow.

FELSS SYSTEMS

Optimal development of machines, manufacturing systems and processes.

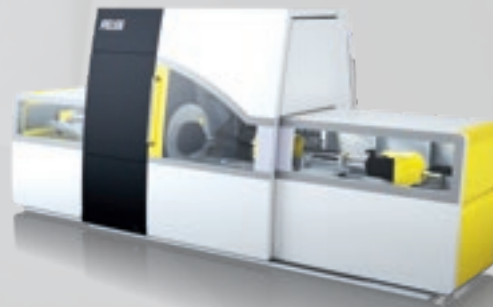

FELSS ROTAFORM

Component manufacturing by specialists, including large-scale production.

FELSS GROUP GMBH
Dieselstrasse 2
D-75203 Koenigsbach-Stein

- + Cost efficiency through Felss technologies.
- + Experience and continuous development.
- + Tested millions of times and successfully on the roads.
