FELSS
The smarter way of forming.

FELSS – YOUR RISK SHARING PARTNER

YOUR PRODUCTION. OUR COMMITMENT.

Your production goals drive our solutions. We provide the right machine technology, upgrade existing equipment and take on component manufacturing when needed. By combining engineering expertise with production responsibility, we create new opportunities for your business.

WHEN PRODUCTION **NEEDS A NEW APPROACH.**

- New projects and components
- Fluctuating volumes and phasing-out programs
- Site relocations and available capacity
- From new projects to production realignment.

MECHANICAL ENGINEERING. PRODUCTION EXPERIENCE.

We know what matters in component manufacturing. That's why we consider the entire process, from machine technology to cost-effective production.

YOUR PRODUCTION. YOUR CHOICE.

With Felss, you decide how your components are manufactured: in-house with Felss machines, using upgraded equipment or directly by our specialists. As your requirements change, we help you adapt your production strategy.

MAKE

PRODUCE IN-HOUSE.

Our machinery solutions and process know-how for your in-house component manufacturing.

RETROFIT

UPGRADE WHAT YOU HAVE.

Modernize your machines and systems to meet new component, process and production requirements.

BUY

LET US HANDLE PRODUCTION.

Component manufacturing by Felss Rotaform, potentially including the takeover of existing machines or complete production and assembly lines.

MORE FLEXIBILITY FOR YOUR PRODUCTION.

INVEST WHERE IT MATTERS
Choose between new equipment, retrofitting and component sourcing.

SECURE COMPONENT SUPPLY
Adapt manufacturing and supply to changing production requirements.

FREE UP RESOURCES
Relieve in-house capacity by transferring production tasks.

STAY READY FOR CHANGE
Respond to new components, changing volumes and site decisions.

LET'S TALK ABOUT YOUR PRODUCTION.

Planning new production, upgrading existing equipment or considering transferring production responsibility? Let's explore your options together.
